AP TECH

AP Tech Kenya is a leading Software Development Firm, dealing in tailor made Systems Development and Information Systems Auditing. We pride ourselves in the fact that we can identify the issues in your organization and provide the best fit solutions.

Leading in Customized Software Development, AP Tech will help your organization grow to greater heights with enhanced stability, security and efficiency!

## Mapping out the growth of our clients

Complete Automization using a customized solution; tailored to fit the organization perfectly, such as the StockPro solution for clients like Automech Diesel Services Ltd and the VisionPro solution for opticians like Cambrige and Eye-Co. Running on C# with SQL Database, it provides a stable, reliable and secure environment.

Online learning platform, web app development and e-commerce for organizations such as the Bab al-Ridha Foundation and Network Options Limited. Catering for provision of stable, secure and reliable services across various platforms for clients all around the globe,

Web based, offline, end to end solution provided for HRA Medical Clinic and Red Crescent based on PHP (Codeigniter Framework). Completely customized according to requirements to include Laboratory tests, staff management and basic invoicing.

Provision of IT Consultancy services for large corporations such as Frontier Optical Networks, with various objectives such as that of packaging and marketing a brand new Information Systems Content Delivery product into the Kenyan market with reliable expertise and efficiency.

## Our services

We have a narrow specialization, because we are engaged only in what we love, understand and what we do best.

### IT Consultancy

We act as a bridge between your technical team and rest of the staff. Our whole objective is to get a clear understanding of your business model, strategy and relevant requirements.

### Information Systems Auditing

If you want to show your clients that your business follows the standards required to provide efficient and satisfactory service, and if you want to ensure that your IT Systems are working in accordance to your business processes, and if you want to be completely secure in terms of IT Security, you need to get a full Information System Audit conducted in your firm.

### Customized Systems Development

We listen to your requirements and build up the solution to fit your organization. We have worked with various organizations to develop customized solutions such as Point of Sale, Inventory Management, Online Shops, Clinic Management, Restaurant Management, Automotive Showroom Management, Optometry Software and other solutions.

"The wise aim at perfection,  
The foolish aim at wealth."

Ali ibn Abitalib
